
Please provide brief answers to the following questions. Information about your background and experience will be helpful to me in designing the lectures and homeworks.

1. Name:
2. Undergrad or grad:
3. Major or graduate field:
4. Year (e.g., senior, 1st year grad):
5. Email (for class mailing list):
6. Do you plan to take the course S/U, for a letter grade, or would you prefer to audit (discour-aged)?
7. Please give titles or brief descriptions of any courses in probability and statistics that you have taken:
8. Please give titles or brief descriptions of any courses in programming, algorithms, or data structures that you have taken:
9. Have you taken any other courses in machine learning or artificial intelligence? If so, please list:
10. Please give one or two reasons why you are interested in taking the class.

Thank you!
